F4STER | FIERCER | UNSTOPP4BLE.

With the new **Prokennex Q Series**, every shot is a surge of energy. Thanks to Quadfocus technology and innovative materials, power is distributed across four strategic zones of the frame, offering unparalleled stability, explosive speed, and absolute control, even in the most extreme rallies.

THIS ISN'T JUST SPEED, THIS IS TOTAL DOMINATION.

**GUARANTEED
ARM SAVER**

> THE ULTIM4TE EVOLUTION OF KINETIC TECHNOLOGY.

The Q+ Series represents the pinnacle of Kinetic technology evolution. The QuadFocus System repositions the Kinetic Energy Chambers at the four corners of the frame, redefining Newtonian physics and significantly enhancing torsional stability and the effective hitting area.

With a 25% increase in Kinetic Mass volume compared to the previous generation, the Q+ Series expands the sweet spot, delivering greater power and unmatched arm protection. The Advanced Timing System (ATS) uses the Kinetic masses to store energy during the swing and release it in perfect sync with impact, ensuring a smooth, progressive, and highly efficient energy transfer. Even on off-center hits, the frame maintains consistent power and precision, minimizing energy loss and improving dynamic stability.

The Active Damping System, based on the Kinetic Damping Chamber integrated into the handle, activates immediately after impact; the internal micro-spheres move freely, generating controlled friction that absorbs residual micro-oscillations.

This dynamic shock absorber reduces both the intensity and duration of unwanted vibrations, providing a stable, soft, and precise feel – in perfect harmony with the player's natural motion.

Q+20

HS _ 111 in²
P _ 24 mm
L _ 27,25"

SPIRAL TECH CARBON
POWERED BY
QU4DFOCUS

> SPEED MADE EFFORTLESS.

The new Q+20 has been **designed and engineered with an enlarged string bed** and a 27.25-inch length to meet the needs of players seeking a more accessible approach to the game, without sacrificing any of the advantages that define the Q+ Series: **high speed, clean ball release, and effortless topspin and backspin.**

The new Q+20 is a highly versatile performance racquet, perfectly suited to players of all levels who love to create depth and precision on court, while maintaining absolute control on every shot.

BALANCED FOR POWER. BUILT FOR PRECISION.

Q30

HS _ 119 in²
P _ 28 mm
L _ 27,5"

SPIRAL TECH

POWERED BY
Q4DFOCUS

> DOMINANCE COMES E4SY.

The Q+30 is the **most powerful frame in the collection**, a true expression of strength and comfort combined. Designed to deliver maximum ball speed with minimal effort, it transforms every swing into pure, effortless acceleration. Its 119 in² head and extended 27.5" length allow players to **cover every area of the court with confidence, enhancing depth, spin, and recovery even in the most defensive situations.**

The racquet's stable structure and responsive feel make it equally effective for volleys and attacking play at the net. Ideal for players seeking comfort, explosive power, and fluid handling, without compromise.

EVERY INCH BUILT TO WIN.

R_M

Q+TOUR

HS _ 98 in²
P _ 19 mm
L _ 27"

SPIRAL TECH
CARBON
POWERED BY
QUADFOCUS

> ENGINEERED FOR PRECISION.

The Q+Tour series represents **the essence of a true performance classic racquet.**

Built for competitive players who demand precision, control, and total responsiveness, it blends stability and feel into a single, uncompromising frame. The squared beam geometry enhances feedback and directional accuracy, while the Quadfocus technology optimizes weight distribution for superior balance and stability through impact.

The Q+Tour (16x19) provides controlled spin and fluid maneuverability for versatile all-court players, while the Q+Tour PRO (18x20) amplifies control and consistency, offering a denser pattern and an unmistakably solid response for advanced competitors. **A professional frame built to perform, every swing, every rally, every match.**

DESIGNED FOR THE PUREST GAME.
